

Newsletter - Scor Chair on Mortality Research

Third quarter 2025

The team is now back at work after some well-deserved summer holidays. While summer was a time for rest, the team also remained active, continuing to advance research and, most importantly, participating in international conferences.

Conferences and dissemination

Royal Statistical Society (RSS) International Conference 2025 in Edinburgh Scotland, 1-4 September 2025.

Check the program: <https://virtual.oxfordabstracts.com/event/40660/program>

- Silvia Rizzi presented her work entitled “Impact of the COVID-19 pandemic on cohort life expectancy” in an oral session.

International Population Conference in Brisbane Australia, 13-18 July 2025.

Check the program: <https://ipc2025.popconf.org/>

- Elizaveta Ukolova presented her paper “Modelling Interactions between Multiple Causes of Death Using Causal Pies” in an oral session.

Other news

Elizaveta Ukolova spent August and September in Stockholm for a research stay, collaborating with Julien Tomas on disease trajectories and combinations.
