

INTERNATIONAL CONFERENCE

Emerging Infections and Pandemic Risk

June 21-22, 2018 - Institut Pasteur, Duclaux Lecture Hall

100 years after the deadliest influenza pandemic in human history – the 1918 Spanish flu – emerging infectious diseases continue to pose a threat to public health around the world. The conference “Emerging Infections and Pandemic Risk” will bring together leading international scientists for a conference on the emergence, spread, detection and control of diseases with pandemic potential (with the generous support of SCOR Corporate Foundation for Science). The conference will be welcomed by Professor Stewart Cole, President of the Institut Pasteur, and Denis Kessler, SCOR CEO.

DAY 1

- **Lone Simonsen**, Roskilde University
- **Peter Daszak**, EcoHealth Alliance
- **Edward C. Holmes**, University of Sydney
- **Marion Koopmans**, Erasmus MC
- **Martine Peeters**, IRD

DAY 2

- **Neil Ferguson**, Imperial College London
- **Scott C. Weaver**, University of Texas
- **Trevor Bedford**, Fred Hutchinson Cancer Research Center, Seattle
- **David Pigott**, University of Washington, Seattle
- **Tamara Giles-Vernick**, Institut Pasteur
- **Marcel Salathé**, EPFL
- **Scott Dowell**, Bill & Melinda Gates Foundation

CLOSING SESSION

- **Lluís Quintana-Murci**, Institut Pasteur
- **Arnaud Fontanet**, Institut Pasteur

CHAIRS

- **Laurent Abel**, Inserm & SCOR Foundation
- **Antoine Gessain**, Institut Pasteur

CHAIRS

- **Philippe Trainar**, SCOR Foundation
- **Simon Cauchemez**, Institut Pasteur
- **Paolo De Martin**, SCOR Global Life
- **Bruno Latourrette**, SCOR Foundation
- **Thomas Bourgeron**, Institut Pasteur

ORGANIZATION COMMITTEE

- **Arnaud Fontanet**, Institut Pasteur
- **Simon Cauchemez**, Institut Pasteur
- **Laurent Abel**, Inserm
- **Philippe Trainar**, SCOR Foundation
